S'well®

## What sets us apart?

The S'well powered by Zing partnership was born from a shared passion for excellence. We are committed to providing you with your premier choice for decorated, retail quality drinkware.

S'well makes the most crave-worthy and highest-quality products in every category that they enter. Their beautiful aesthetic, product performance and deep customer connection always exceed the high expectations of their discerning customers. The combination of S'well's stunning design and heart-felt charitable initiatives creates an emotional connection and brand loyalty that is the envy of their competitors.

Zing Manufacturing has been a leader in the promotional products industry for over 20 years. Our 130 experienced team members understand the level of service and quality that is expected by our valued distributors and their customers. Through our body of work we have earned a reputation as providers of the highest quality product, customer service, best-in-class decoration, and lead time.

**Bottom line:** The S'well powered by Zing partnership is built to satisfy your need for the perfect promotional product!

Looking for a Different S'well

# COMMITMENT

S'well is committed to the highest verified standards of social and environmental performance, supporting programs that seek to protect our environment, empower communities and encourage advocacy through action.

Since 2015, S'well has committed more than \$1.6 million to help UNICEF build infrastructure, educate families and help provide clean, safe water to the world's most vulnerable communities. Our most recent efforts have supported UNICEF in providing 750,000 people in Madagascar with access to clean water, 3 million with proper sanitation and 470,000 children with educational resources.

S'well has partnered with influential non-profit, Lonely Whale, on their "How Do You Hydrate Campaign" to raise awareness about the effect of single-use plastic bottles and reusable alternatives. S'well also supports their youth advocacy initiatives focused on creating leaders to take action against ocean plastic pollution.

In 2018, S'well joined Sustainable Brands, a global network of leading retail companies focused on affecting environmental and social change, to find new ways to further our positive impact and that of the industry.

## #BringItNYC

As part of S'well's Million Bottle Project, we partnered with the NYC Mayor's Office of Sustainability, reaching 1.1 million students through a year long activation that included bottle distribution, an art contest and educational touchpoints to help displace 54 million single-use plastic bottles.

## #ForTheFrontlines

S'well quickly mobilized as Covid-19 took hold to keep healthcare heroes hydrated while they put their lives at risk to keep us safe. S'well distributed \$1 million in bottles to 28,500 healthcare heroes at 50 institutions in the US and UK. We helped displace more than 4.8 million single-use plastic bottles along the way and shared the stories of these heroes with the S'well community.

## #HydrateEDU

Communities continue to be in need due to the pandemic. With schools reopening and water fountains closed, schools needed support. S'well launched Hydrate EDU with the distribution of 10,000 bottles to help keep students across North America hydrate safely and sustainably in the classroom.

# PRODUCTION

Manufacturing is our specialty. Our design, customer service, inventory, and production lines are all under one roof. We have solutions for all decoration and delivery wants and needs.

**Standard Lead Time**  
5-7 Business Days

**Rush Services (Select Products)**

Orders must be received by 10am & proof approved by 3pm

- 72 Hour Service**
- o Available for all decoration methods
  - o \$50.00(G)
  - o Maximum 576 Units

- 24 Hour Service**
- o Available for Laser or 1-2 Color Print
  - o \$125.00(G)
  - o Maximum 288 Units

## Laser Engraving

This is our tried and true decoration method. The level of detail able to be achieved, even in the most complex artwork, is unmatched. Engraving down to the original material creates a high end look that is complementary to the stainless steel accents and S'well logo. Perhaps most important, this decoration method is our most durable option.

## 4CP Digital Print

Our newest and most advanced decoration method provides excellent versatility. Features include high-resolution printing, CMYK/PMS Color Matching, UV light cured ink, and varnish abilities to add texture & a high gloss finish if desired. Our Full Color Digital process has yet to see artwork it cannot handle, and has been tested to be dishwasher safe up to 200 washes.

## 2 Color Printing

Spot color printing is the original of all decoration methods. For 1 and 2 color logos this is the highest quality and most efficient method available.
